

Cone

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

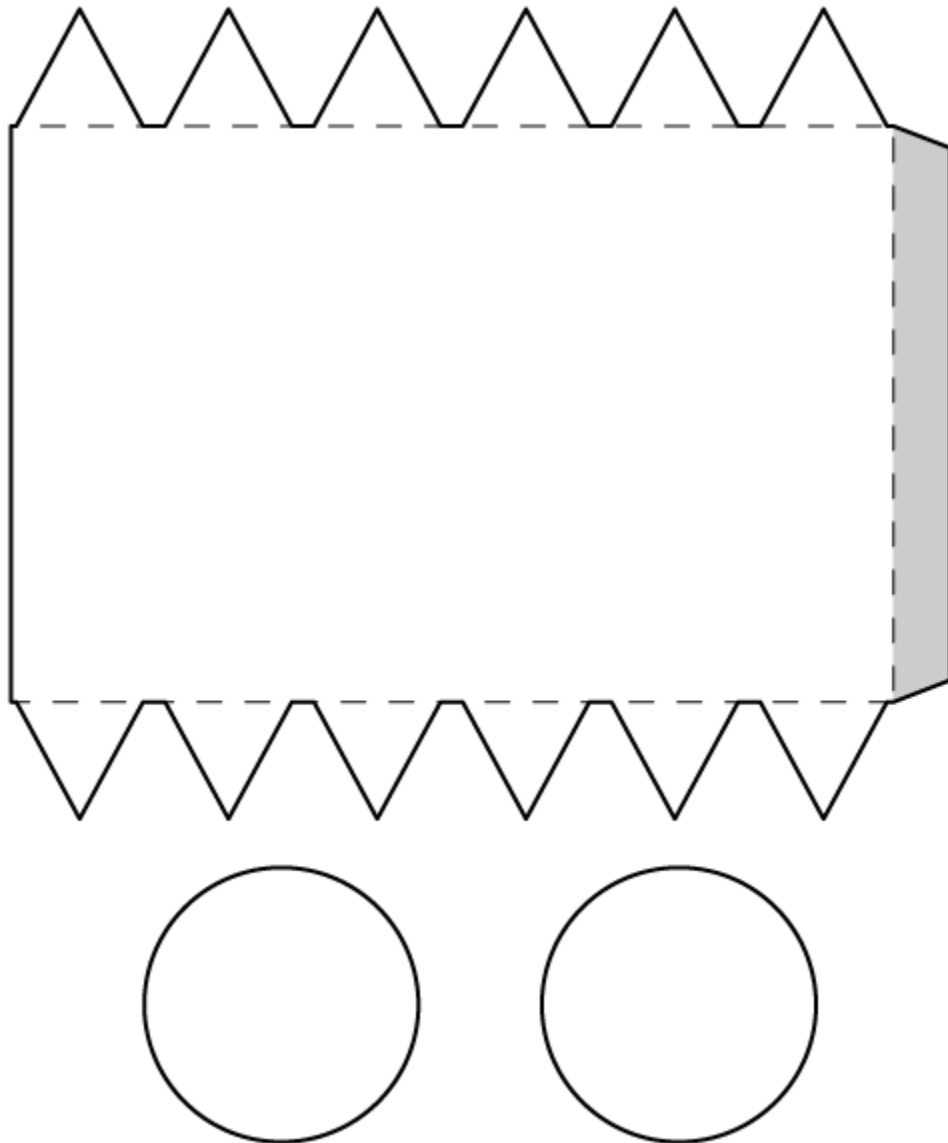

Cube

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

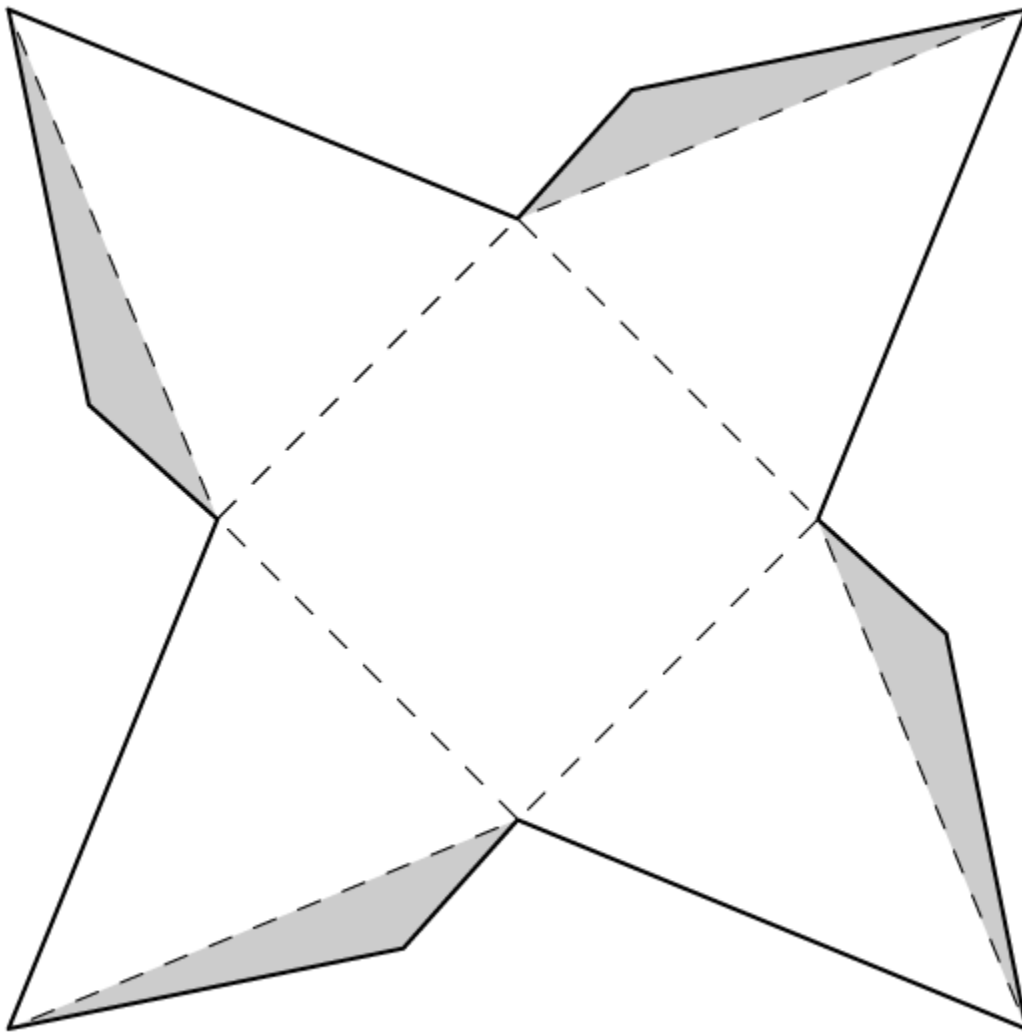

Cylinder

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

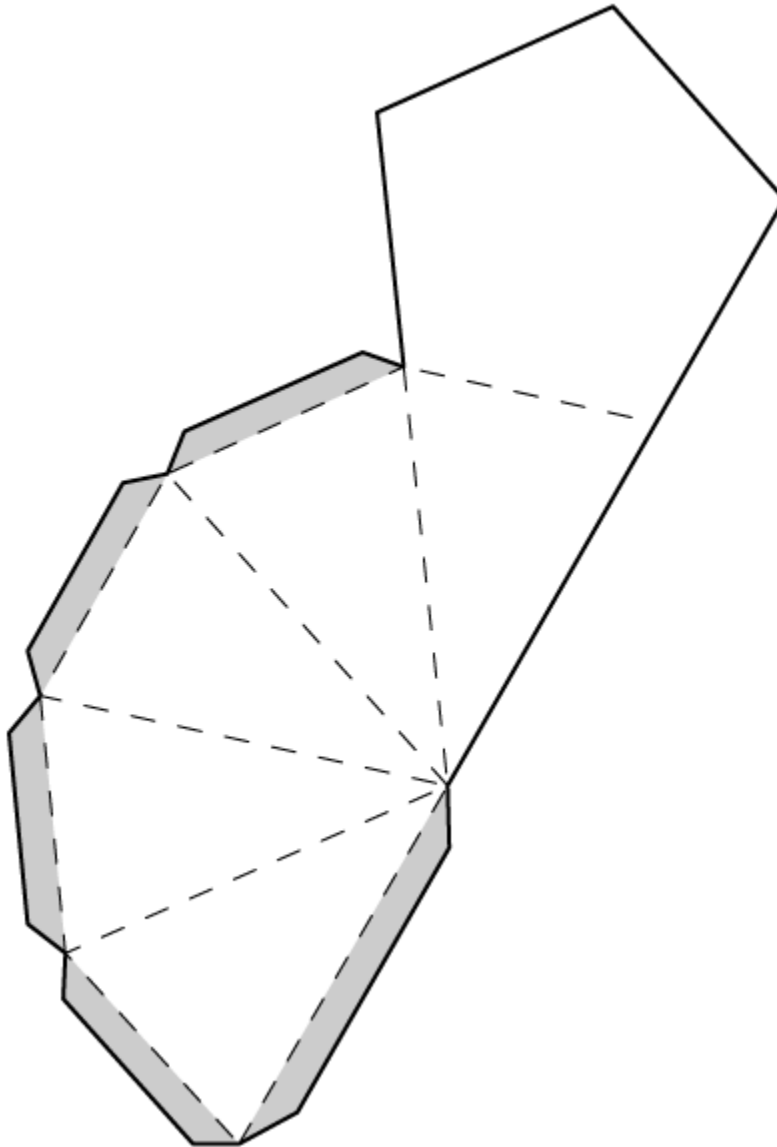

Pyramid

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

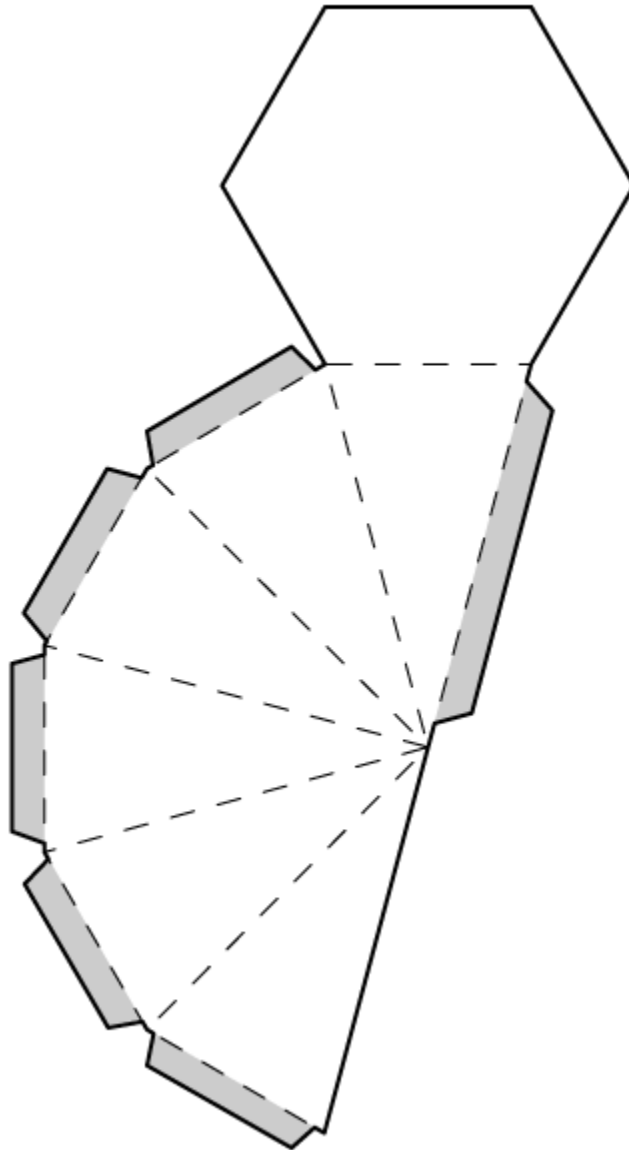

Pentagonal Pyramid

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

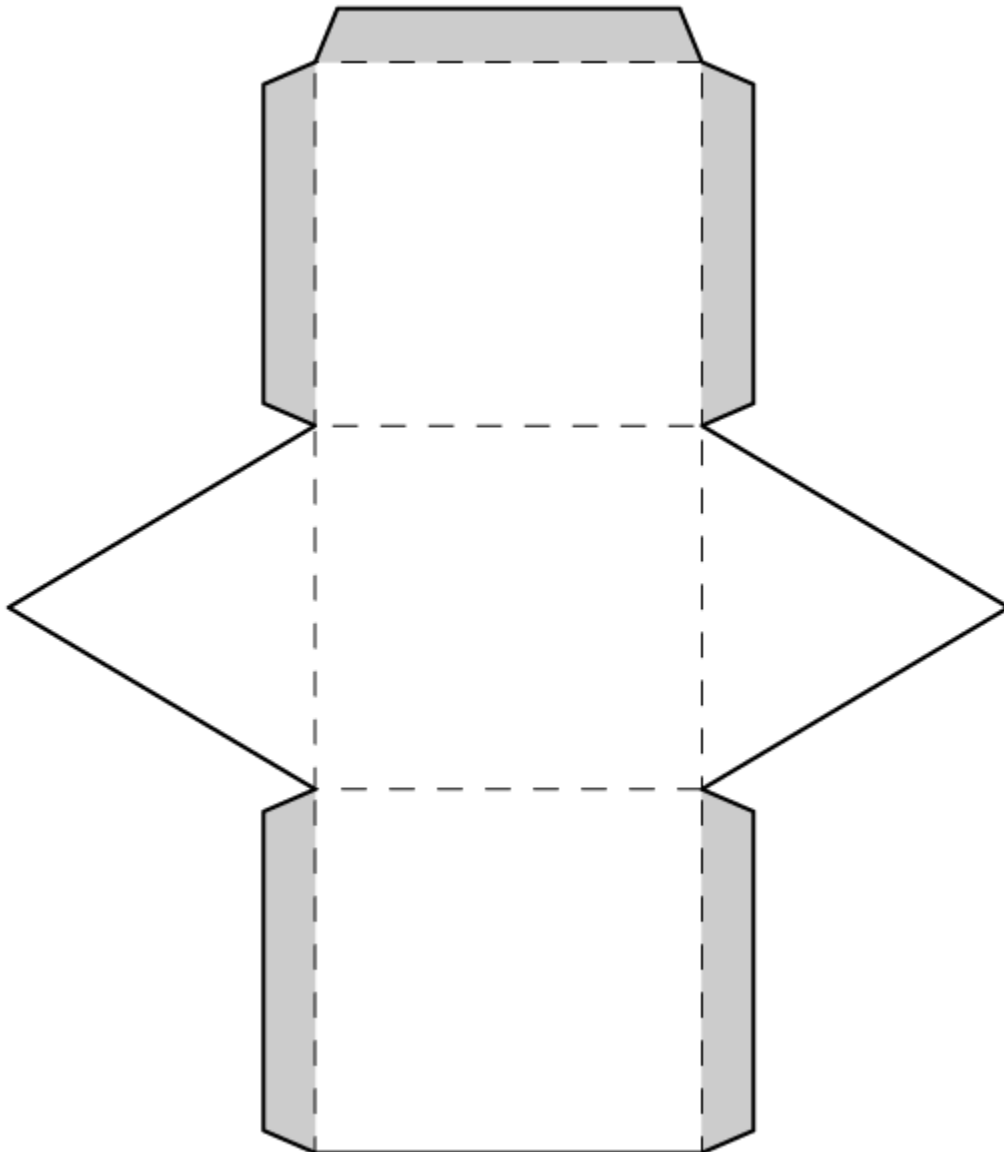

Hexagonal Pyramid

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

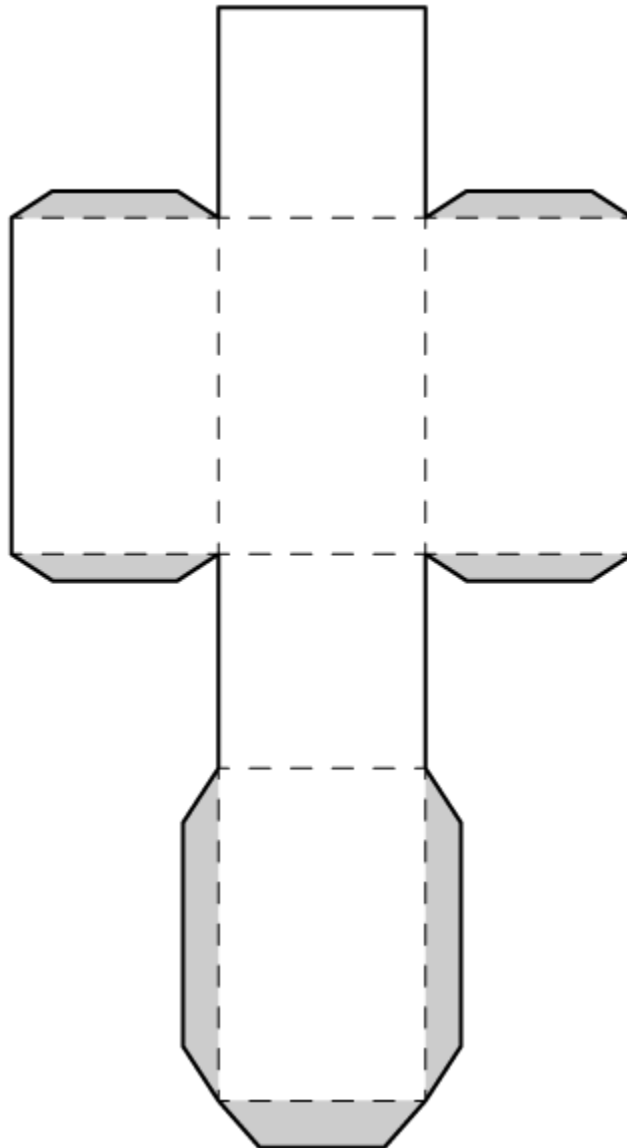

Triangular Prism

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

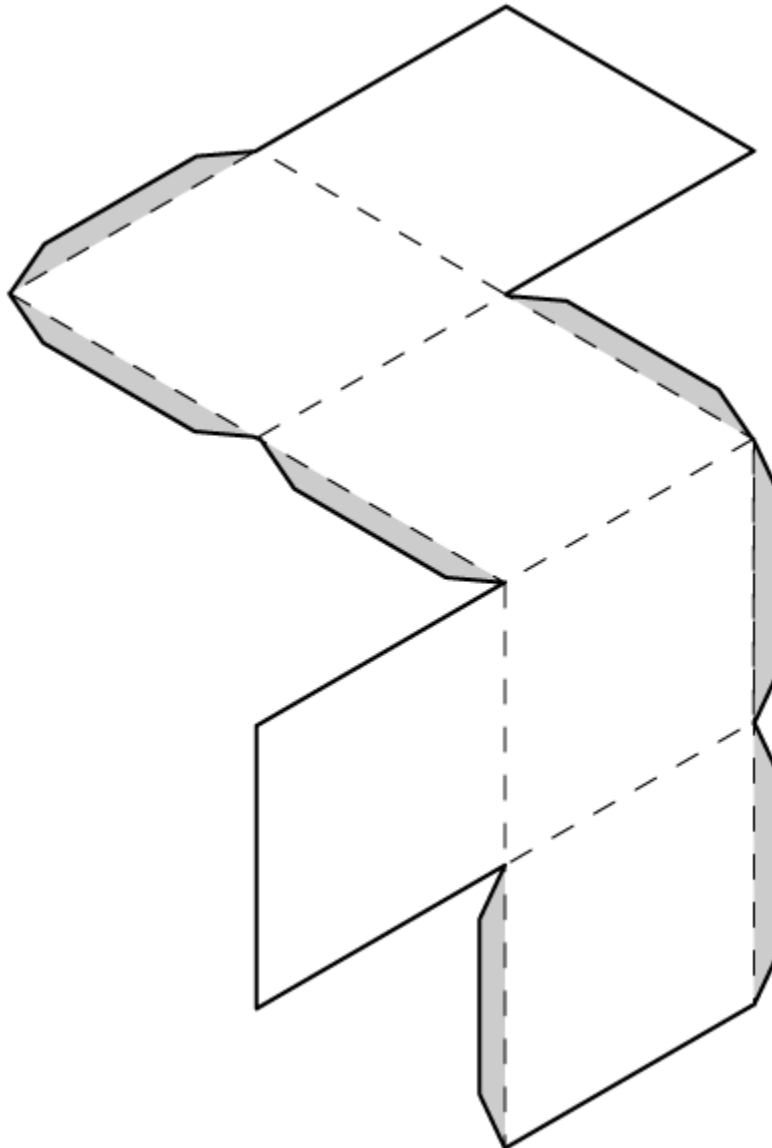

Rectangular Prism

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

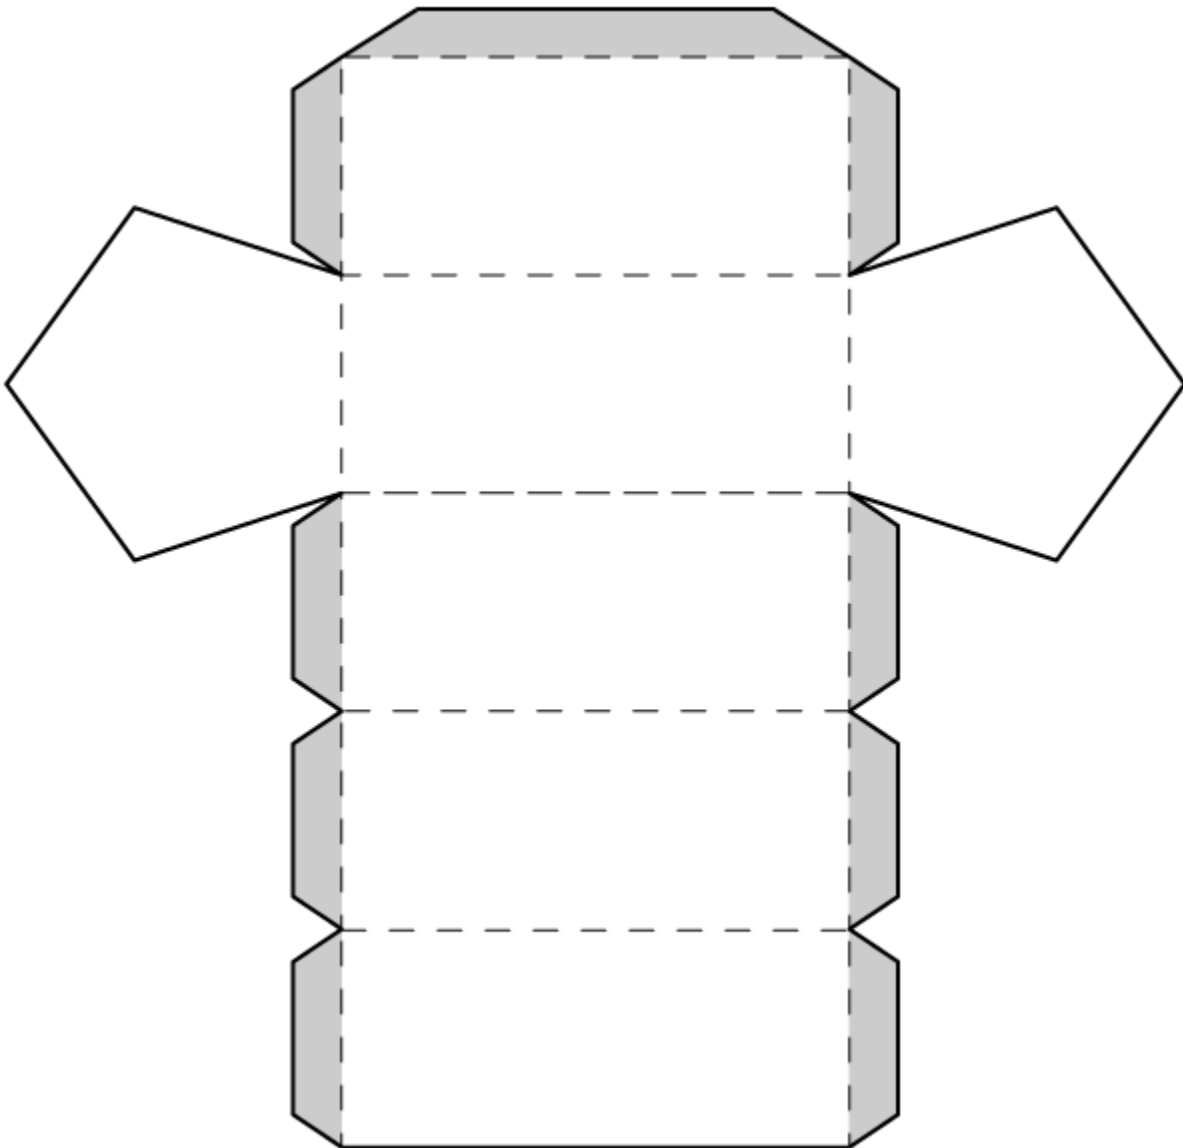

Rhombic Prism

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

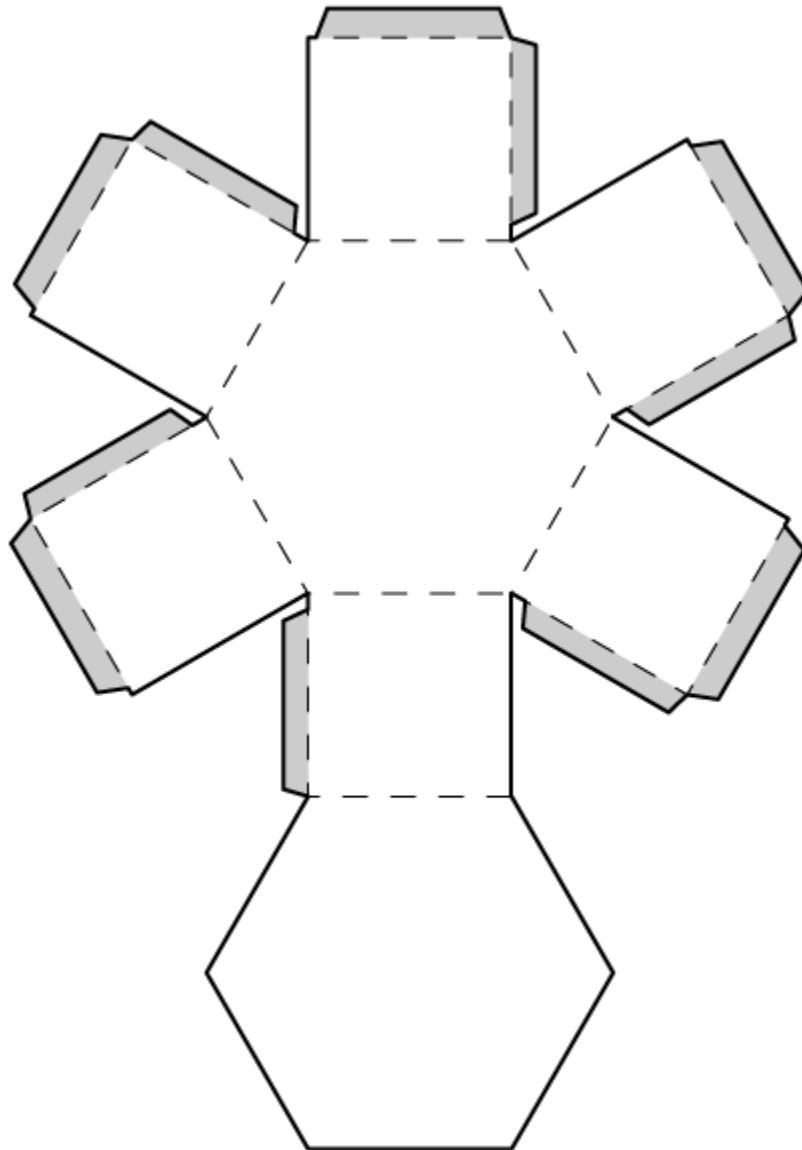

Pentagonal Prism

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

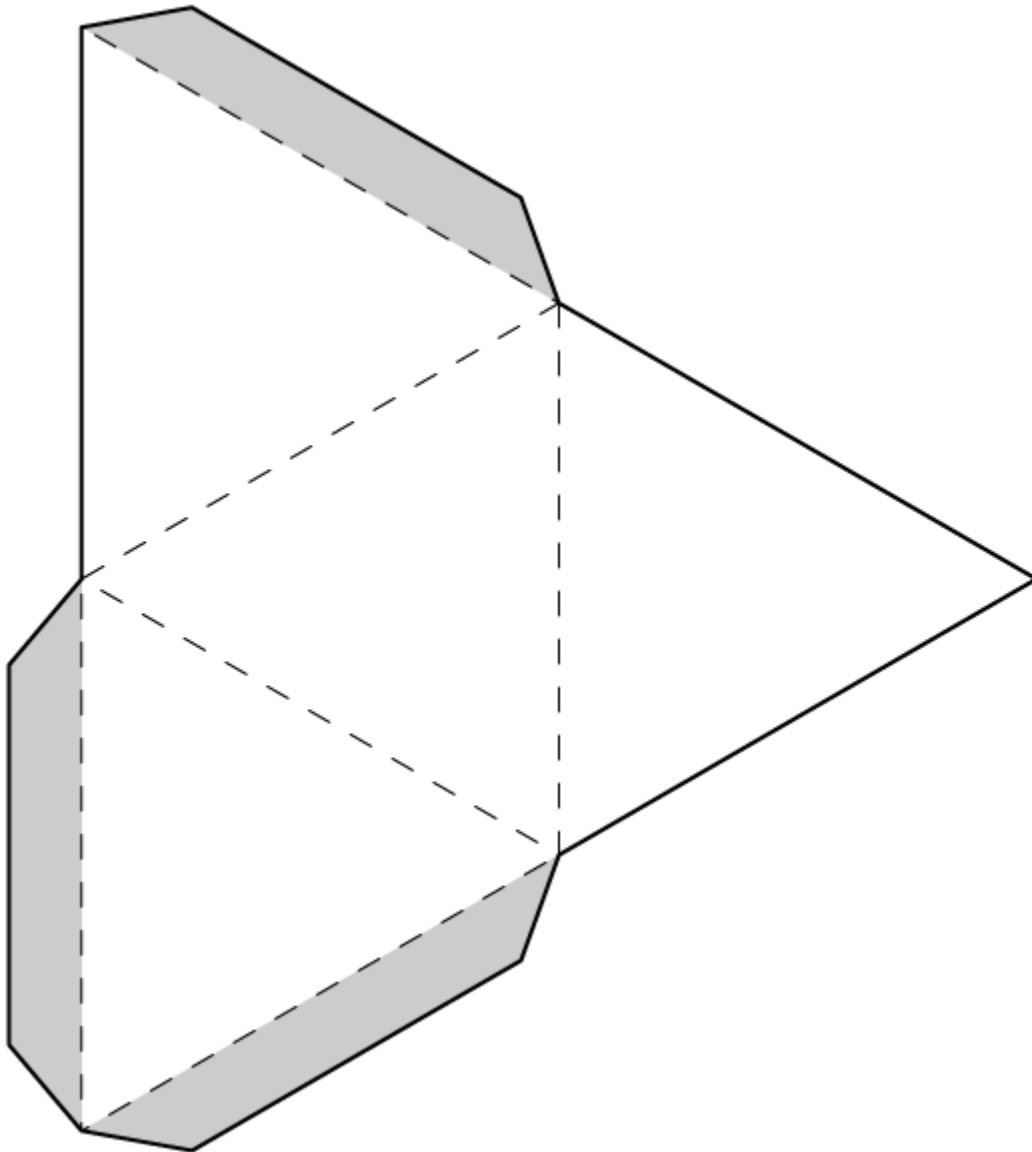

Hexagonal Prism

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

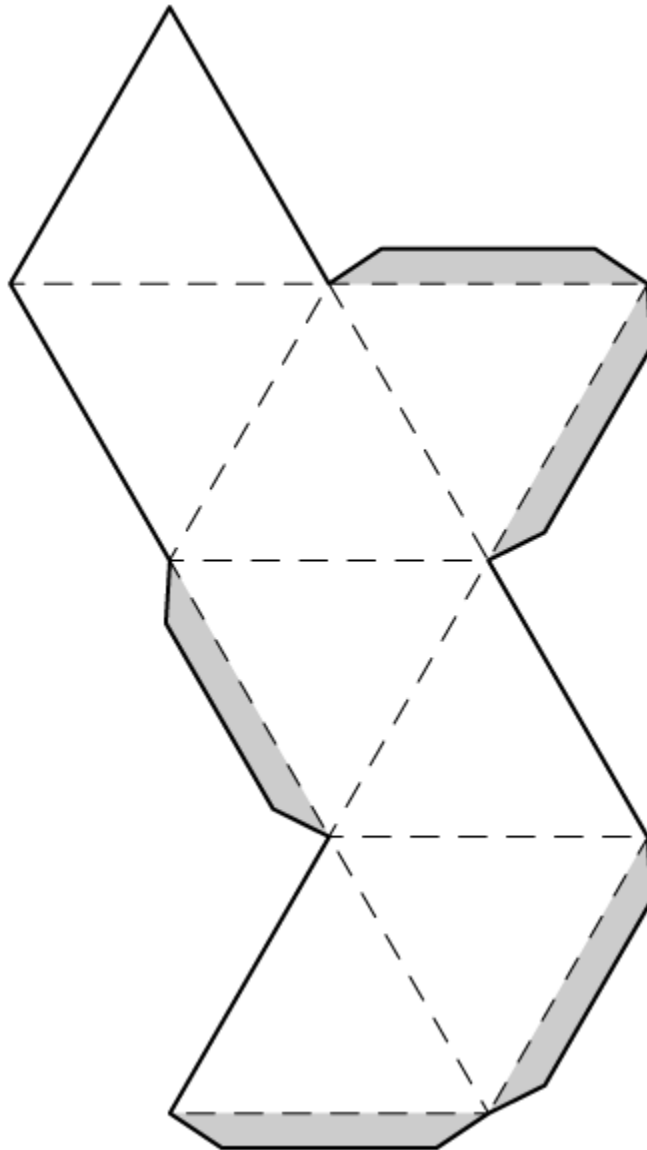

Tetrahedron

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

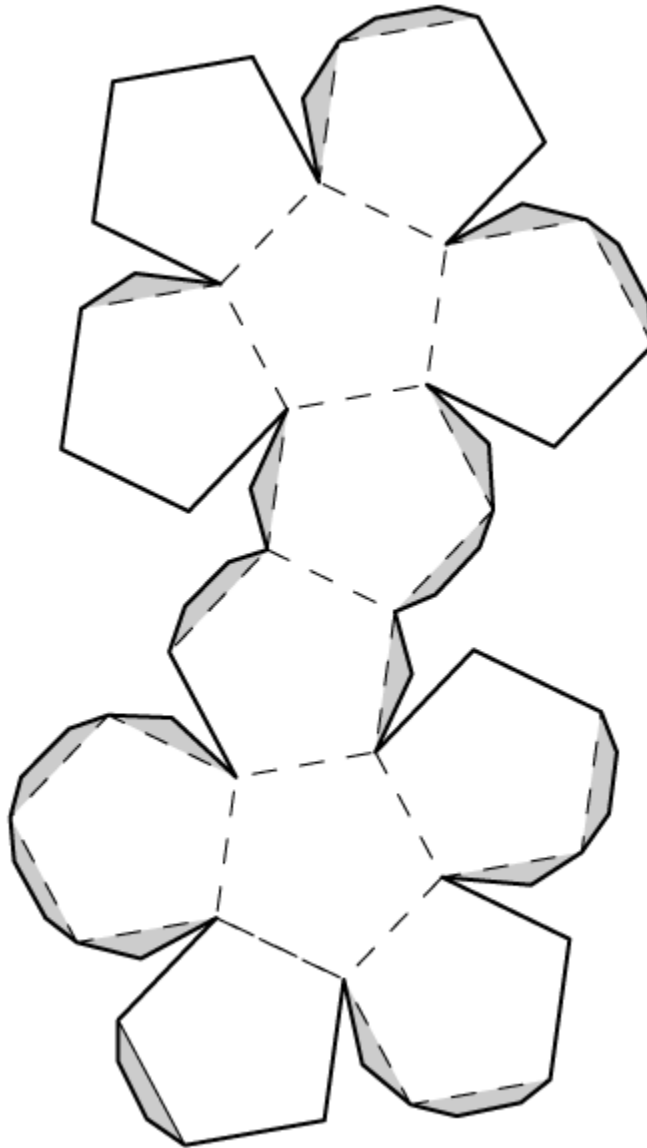

Octahedron

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

Dodecahedron

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.

Icosahedron

Directions: Use scissors to cut out the net. Fold along dotted lines, then tape or glue edges together.
